OUT N' ABOUT HOME SCREEN AND LOADING SCREEN

Out n' About is a mobile application that serves a hub for both event organizers and entertainment seekers to fulfil their respective desires/needs. For Organizers, it is a way to spread the word about their event directly to their target audience, on a highly personalized level, and for entertainment seekers, it is the answer to the ever-elusive question "what do we do this weekend?"

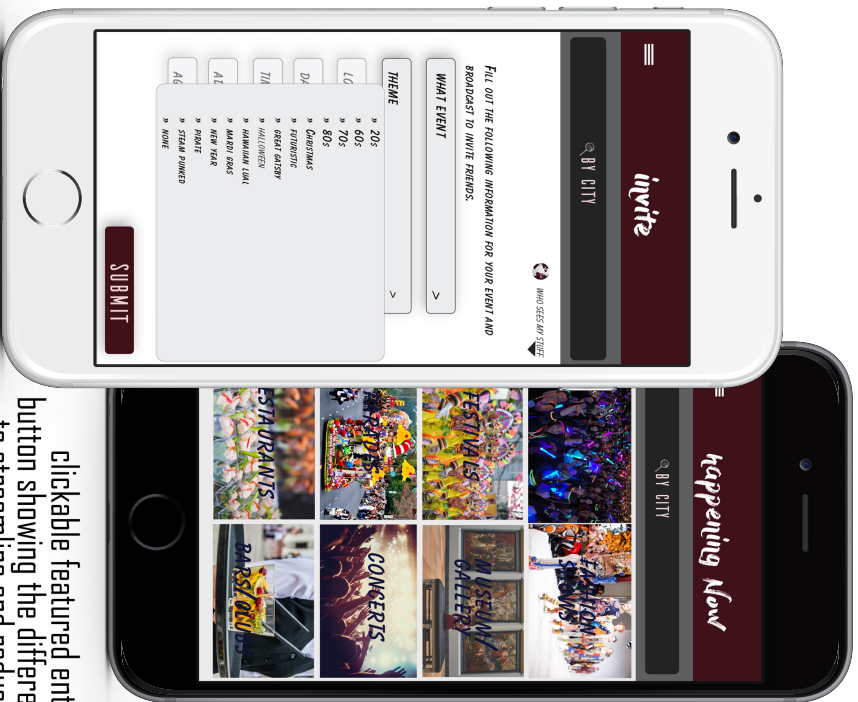

Out n' About Landing and Menu Page

Invite Page: organizers can post information regarding their upcoming events

OUT N' ABOUT

MENU/LANDING PAGE AND INVITE PAGE

This app has an "organizers" tab that allows users to "invite" people to their event, this tab would contain a form that collects the pertinent information about the event the invite page has a privacy feature which allows the organizer of an event to specify who sees or gets the invites.

Invite page: showing the dropdown menu on the different event themes available

clickable featured entertainment button showing the different filter options to streamline and reduce search time

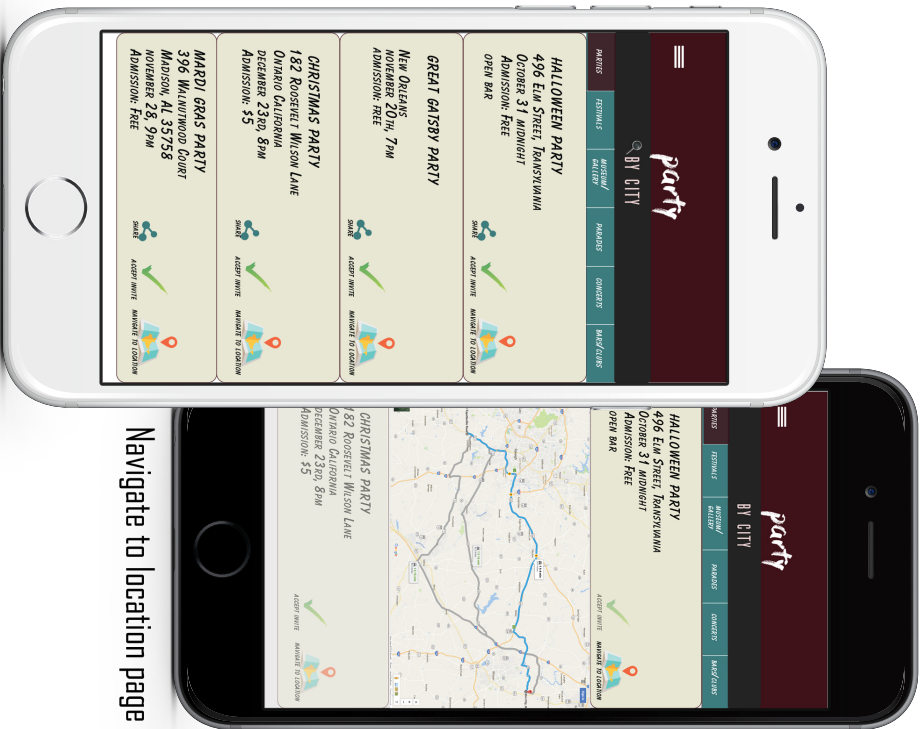

OUT N' ABOUT

INVITE PAGE: DROP DOWN MENU AND CLICKABLE ENTERTAINMENT

The purpose of this app is to provide users with easy and readily available information about a host of events around them regardless of city or state.

specially events they do not know happen around them.

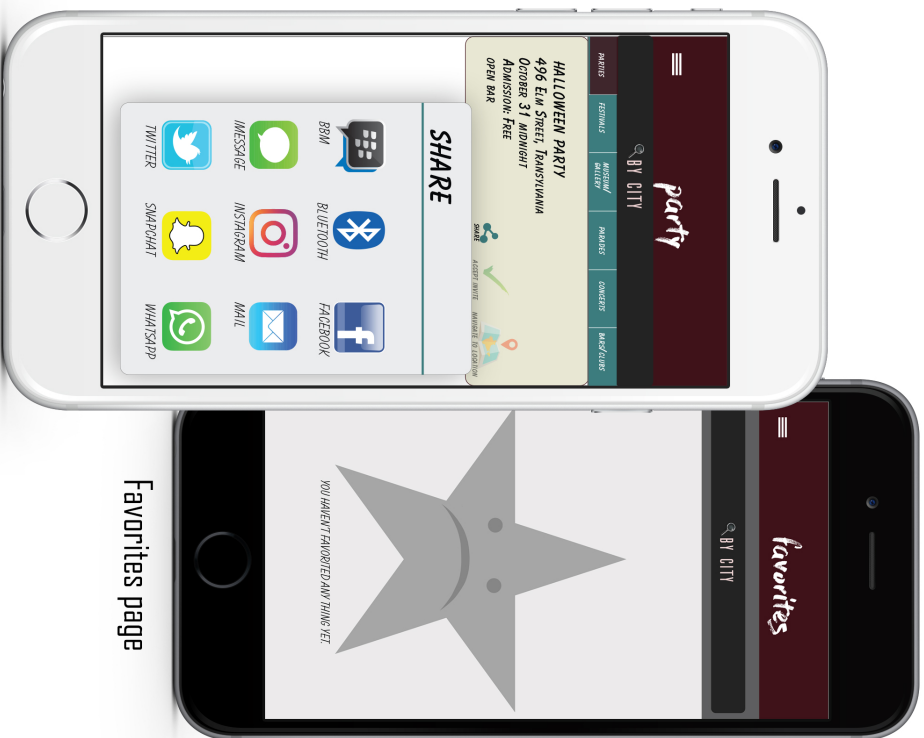

This app also geared towards getting people to consider and take part in other forms of entertainment they are not used to or have been willing to try but don't have a chance to.

Party Page

OUT N' ABOUT PARTY PAGE AND NAIGATION TO LOCATION PAGE

The Party page shows a list of parties, and all the information necessary to prepare and get to the event. It also has a share, accept invite, and a navigate to the location button, which when clicked leads to an in-app map, that navigates to the specified address on the event invite.

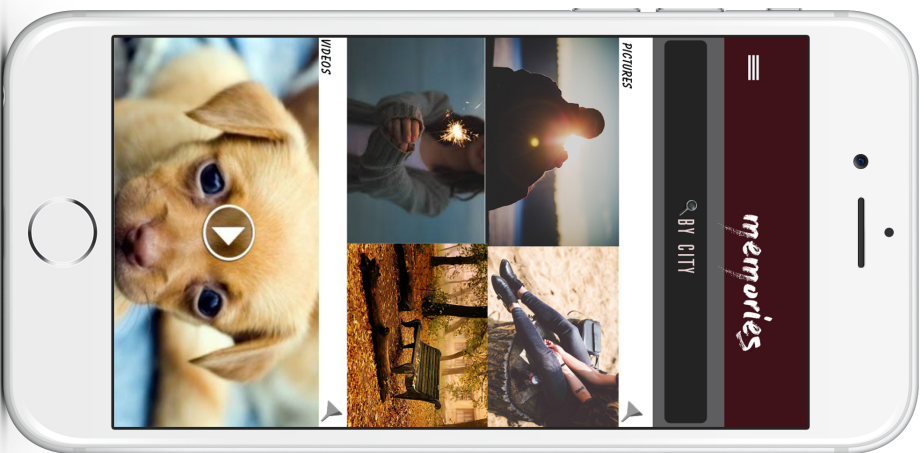

Share Page

Favorites page

OUT N' ABOUT

SHARE PAGE AND FAVORITES PAGE

The share button on the party page allows the app users to post either their intention to either attend, or announce their presence at the posted event. The next page is the Favorites page, that allows for users to store information about the best concerts, shows etc. that they have attended.

OUT N' ABOUT

MEMORIES PAGE

The Memories page allows for users to save pictures as well as videos from their attended events, and stores it, so that it can be relived. These pictures and videos can filterd by dates and location, and can also be shared on social media of their choice.
